

## Appendix C – Venue Clusters

### Cluster 1: Leeds Dock and Brewery Wharf

As well as having access to Royal Armouries and Leeds Dock we are also in discussions with the Ruth Gorse Academy situated on Black Bull Street, approximately a 2 minute walk from Royal Armouries and are proposing to utilise some venue space at this site.

We are also finalising very positive discussions with Vastint regarding the stunning potential of our new city centre greenspace at Aire Park less than 5 minute walk from Royal Armouries and Leeds Dock. This could add an estimated 29,118 SQM of additional event space to the event footprint. This will be a newly delivered piece space, with an excellent place making story behind it, and right on the doorstep of UKREiiF. There will be plenty of opportunities to offer health and wellbeing fringe events or something more public facing around breaking down barriers into the built environment.

Rushbond have also agreed for UKREiiF to use the Brewery Wharf site subject to tenant approval. This could provide an estimated 4,076SQM of event space.

We can easily link each of these sites to one-another negotiating with the highways department with Leeds City Council.

We can also potentially access further public and private venues such as Admiral House on East, Mumtaz restaurant, Leeds Museum Discovery Centre, Printworks at Leeds City College, Horizon Leeds, Leonardo Hotel and Duke Studios on Sheaf Street for further meeting room and event space. There is a 957 SMQ test bed space at Duke Studios which could also be accessed. [TESTBED - a new venue for Leeds \(testbedleeds.com\)](https://www.testbedleeds.com). All of these venues are only 5-10 minutes walk from the main venue.

## **Cluster 2: City Square**

In this ring of steel, only 10 minutes walking distance from Royal Armouries and Leeds Dock is a fantastic civic space, City Square. This is a 21x8 metre public realm space in front of Banyan/Restaurant Bar and Grill and a newly pedestrianised space roughly 60x20 metres (more accurate measurement will be available once the works are finished in a few weeks). A power supply is already installed for events. This is right by the central train station location and is currently having highway infrastructure changes around it in order to establish it as a new public realm space into the city upon arrival into Leeds.

There is the aspiration and ambition to change the City Square space, should this be funded and realised this could be a further new opportunity for UK REiiF.

There is also the Queens Hotel, Park Plaza, Aspire Leeds, Cloth Hall Court, Platform (including rooftop bar) which all have a number of accessible event rooms and spaces.
