# Unlocking the potential of our regions

We take a place-led approach to financing and delivering transformative regeneration. By working with local partners and bringing together expertise from our wider global ecosystem, we are providing solutions to some of society's biggest challenges. This is central to how we create tangible positive impact for local communities, whilst aiming to deliver attractive long-term returns for investors.

Join us at the Legal & General pavilion 21 – 23 May 2024

## WELCOME TO UKREiif

It is with immense pride that I welcome you to The UK's Real Estate Investment and Infrastructure Forum (UKREiif). In just three years, we've witnessed extraordinary growth—from our inaugural gathering of over 3,500 attendees to a vibrant community that now exceeds 12,000. This expansion is not just a number—it's a testament to the thriving ecosystem we've nurtured right here in Leeds.

Our commitment to this city has been rewarded with substantial local economic impact, not only in monetary terms but also through significant employment opportunities for the community. The collaborations and multi-million-pound deals fostered at our forum between public authorities and corporations across the UK have been groundbreaking.

Our vision was to create an event like no other in the real estate and infrastructure world, where you could forge impactful business relationships that brings transformational investment and regeneration across the UK. Leeds has proven to be an ideal location—dynamic, forward-thinking, and one of the jewels in the UK's crown. Its ability to attract and host such a significant forum is a clear indicator of its status as a leader in the UK's urban development and a key reason for our decision to confirm Leeds as the destination for UKREiif 2025.

Not only that, it is my belief that our emphasis on areas such as sustainability and Equality and Diversity are making a difference in the entire industry.

I must extend a heartfelt thanks to Tom Riordan, Chief Executive of Leeds City Council, Tracy Brabin, Mayor of West Yorkshire Combined Authority and their wider public and private sector teams. Their unflinching support has been integral to the meteoric rise of UKREiif.

Additionally, a huge thanks to our internal team, whose dedication and professionalism continue to astound me. They are the hard-working professionals who have made this event a force to be reckoned with.

I am delighted to have you join us as we continue to build on our successes. Here's to a bigger and better future together at UKREiif 2024!

Thank you for being a part of our journey and for contributing to our collective success.

**Keith Griffiths,**  
Chief Executive,  
UKREiif

# Building better, together

Shared values and a joint focus on building stronger communities, mean we're proud to be **Platinum Partner for UKREiif 2024**.

Visit the **Pagabo Group Pavilion** to learn about our procurement and technology services.

**PAGABO**® Group

## WELCOME TO UKREiif

### Communicating ideas and sharing knowledge is essential to making positive change.

We've supported UKREiif since its inception and have seen first-hand the power of the collaboration and idea sharing it has facilitated and the impact this can have on developing stronger, more sustainable communities.

At this year's event, there's an emphasis on social value, sustainability and diversity. As a business which shares these core values, we're proud that the Pagabo Group is UKREiif's first Platinum Partner, and we look forward to the new conversations, connections and relationships it will bring.

UKREiif has a strong track record, so there's a lot to live up to for this third instalment – but looking at the schedule it's clear that's already been surpassed. With a jam-packed programme of insightful talks, charity fundraisers, and networking events, there really is something for everyone this week.

We'll be based at the Pagabo Group Pavilion, offering insights on industry developments and running round tables with key stakeholders from our industry. Plus, we'll be hosting a brand-new initiative on the final day – 'The Pitch' – where a panel of industry leaders will hear from the sector's most innovative new start-ups ready to scale-up.

Whether it's over a drink, putting our team to the test at our Challenge Pagabo Group fringe event (join us at Roxy Ballroom on Tuesday night), or back at our pavilion, there are plenty of opportunities to speak to our team.

We can't wait to see you – here's to another brilliant UKREiif!

**Simon Toplass,**  
Group Chief Executive,  
Pagabo Group

# Shaping sustainable communities

Seize the opportunity for a sustainable future.

## WELCOME TO UKREiif

**In 2024 the UK's Real Estate Investment and Infrastructure Forum is certain to inspire action. JLL has been part of the conversation every year, championing the progress we all want to see and now, at the start of a new property cycle, this is more important than ever. The conversations and decisions that happen now are what will set the pace for the coming years.**

The forthcoming election will shape the post-Covid landscape in which we all operate. Our industry is more settled, but a stable regulatory environment and long-term policy making is needed, particularly around planning and ESG. Both are essential to foster investment and sustainable development.

Beyond this year, several key trends remain prevalent. Paramount among them is sustainability – a challenge that is defining our decade. Buildings that meet green specifications complement net zero targets, and become coveted spaces for people to live and work in are commanding the industry's focus.

A consensus between employees and employers on the purpose of the office aligns with its keystone role in developing and redefining places alongside retail, residential, leisure and urban logistics. Amidst this, technology advancements will drive productivity, resilience and sustainability, with data-driven decision-making delivering better portfolio insights, market predictions and investment strategies.

The conversations and connections at UKREiif will chart a course of action for our sector, and whilst there will be challenges, this looks like a year that will be defined by opportunity.

**Stephanie Hyde,**  
CEO UK and CEO EMEA Markets,  
JLL

Government  
Property  
Agency

# TRANSFORMING GOVERNMENT PROPERTY

Working with over 120 government departments across more than 200 properties, we are shaping a smaller, better, and greener government office estate, transforming the portfolio to better serve the UK's civil servants.

**Strategic consolidation:** Optimise space, unlock savings, and empower a thriving Civil Service.

**Regional powerhouse:** Fuel economic growth through industry-leading commercial office developments.

**Sustainable future:** Delivering on Net Zero goals while maximising public value.

## WELCOME TO UKREiIF

Welcome to The UK's Real Estate Investment and Infrastructure Forum (UKREiIF) 2024.

After the resounding success of the previous two years, I am delighted to see that UKREiIF has become a firm staple of the investment calendar, and continues to champion UK plc by bringing together national and local government as well domestic and international developers and investors.

Inward investment acts as a crucial engine for growth, boosting productivity and driving innovation, whilst also helping to encourage the high-quality jobs that act to revitalise and level-up our communities. Real estate and infrastructure are essential to our investment strategy and encourages an environment in which firms can deliver the best possible outcomes for investors, businesses, and the UK economy.

The UK has a proud democratic history, an attractive business environment and a commitment to further reform; we also have world-leading institutions and an incredibly skilled workforce of which we are rightly proud. These are the reasons why investors choose the UK.

With a wide array of green-lit projects right across the country, there couldn't be a better time to invest.

During your time at UKREiIF, you will encounter an impressive variety of opportunities available throughout the UK, across sectors such as property, construction, life sciences and technology. I urge you to take this chance to connect with fellow investors and decision-makers, to deepen your understanding of these opportunities and explore ways to make them a part of your portfolio.

The UK will always offer a reliable and business friendly environment that encourages trade and growth – now couldn't be a better time to invest.

Thank you for joining us here in the vibrant city of Leeds. I wish you an informative and successful experience.

**Lee Rowley MP,**  
Minister for Housing,  
Planning and Building Safety

# Where opportunity lives

- A vibrant and diverse £60 billion economy
- Home to 2.4 million people
- 95,000 businesses
- Globally recognised sectoral strengths
- 7 universities
- 35,000 skilled graduates a year
- Transformative investment in transport
- One of the best places to live in the UK

West  
Yorkshire  
Combined  
Authority

Mayor of  
West Yorkshire

I am delighted to be attending this year's UKREiif, along with some of the most innovative and dynamic businesses across the real estate, investment and infrastructure sectors.

There are huge opportunities to get Britain building again.

I'm grateful to so many of the organisations represented at UKREiif for their contributions to my major capital projects delivery review and the work of the British Infrastructure Council.

Having spoken with many of you, I can sense the appetite to invest, build and get our economy back on track.

The only way we will be able to unlock investment, drive growth and get Britain building again is to create a partnership between government and business that is relentlessly focussed on delivery; which is exactly what we are proposing.

I look forward to continuing to build our partnership here at UKREiif 2024.

**Darren Jones MP,**  
Shadow Chief Secretary to the Treasury,  
Labour Party

# WHAT IS UKREiIF?

The UK's Real Estate Investment and Infrastructure Forum (better known as UKREiIF) is the UK's leading platform for connecting the people, places, and businesses who can collectively drive sustainable and inclusive regeneration and transform communities.

Over the three days conversations will take place that will bring forward new projects, deliver new homes, unlock employment opportunities, and at the heart of everything we do – create opportunities for the communities we deliver regeneration and development within.

## 1. Sustainability

Since its inception in 2022 UKREiIF has earned and maintained ISO20121 Event Sustainability Management Accreditation, underscoring our commitment to delivering the most sustainable event possible. From ensuring 0% of business and event waste goes to landfill and utilising sustainable energy sources, to having sustainability awards and charters in place to demand more sustainable approaches from our event partners and suppliers.

**“The whole team at UKREiIF has genuinely embraced sustainability for this major event across the full range of issues and identified many ways to embed continual improvement for the event sustainability going forwards.”**

**Becky Toal, CEO, Crowberry Consulting Ltd – Enabling Sustainable Futures.**

This focus has ensured that sustainability is a running theme throughout the event agenda. The UK Business Council for Sustainable Development will once again be running a dedicated Pavilion alongside their partners, whilst AiDash are welcomed to the party to host a programme of activity focused on Biodiversity Net Gain. Partners such as the Department for Energy Security and Net Zero are here exhibiting, whilst those investing in a cleaner and greener future such as UK Infrastructure Bank, Phoenix Group and Legal & General are key sponsors and partners of the event.

This year we also welcome Kerry McCarthy MP – the Shadow Minister for Climate Change, Emma Hardy MP – the Shadow Minister for Flooding, Oceans and Coastal Communities, and Alex Sobel MP – Chair of the All Party Parliamentary Group on Net Zero, building on Chris Skidmore's attendance in 2023, showcasing that UKREiIF is the place for the political parties and policy makers to engage with the industry to understand how we can tackle the challenges together.

## 2. Inclusive Investment

There's never been a UK platform to connect investors, capital, and job-creators within our industry together, the previous alternatives all being overseas. But the cost has been restrictive, enabling only the largest cities to attend – UKREiIF has looked to challenge this and create a footing when all towns, cities and regions can connect with those who can bring forward opportunities across the UK.

One way of doing this is through the investor and developer facilitation sessions we run on-site at UKREiIF, where councils and their private sector partners are connected to investors, developers and end-users. In some cases these conversations can be tracked from introduction to delivery – including Torbay Council who recently announced a £100m partnership with Milligan and Willmott Dixon as a direct result of attending UKREiIF (a local authority in the West Midlands and one in the North West are soon to announce similar partnerships which have come to fruition at UKREiIF).

**“We signed to work with a preferred development partner to work with us on four key sites worth over £100m, and that investment is as a direct result of our participation at UKREiIF”.**

**Alan Denby, Director of Pride in Place, Torbay Council.**

We also bring the right investors and developers together. This is a core value for the business and so our partners are all like-minded: Legal & General, British Land, Moda/Caddick, Harworth and others are those who are renowned for their heavy focus on driving social value from their investment. Our partnerships with the Department for Business and Trade, and the Association for Real Estate Funds have also played a fundamental role in 2024 in helping bring these key investors into the room, both domestically and internationally.

## WHAT IS UKREiIF?

### 3. Social Value and D&I

When setting out our vision for UKREiIF we wanted to ensure it was leading the industry. From 2022 we've been monitoring the social value generated from UKREiIF – so far delivering £3.3m in social value and delivering a £17.6m local economic impact for the city of Leeds and wider West Yorkshire Community. We've also helped raise over £250,000 for charity and with more charity partnerships in 2024 that's only going to increase.

For 2024 our D&I Pavilion has had a revamp with an official partnership with Regeneration Brainery an organisation who inspire young people to kickstart a career in property and regeneration. Alongside a dedicated area for their content for three days we've struck up numerous other relationships and partnerships, with over seventy official D&I relationships in place.

We've been very busy. From working with Women in Architecture to run a panel discussion, to helping host hackathons before UKREiIF with Young Entrepreneurs in Property (the results of which will be shared on the main stage). We've got buses of students coming from London, Manchester and Leeds helping 100's of talented youngsters explore the opportunities in the sector. We've also enlisted Community Interest Companies (CIC) to come and share best practice and ways to improve the social impact we can have.

Over £1m of in-kind donations have been provided, in the form of tickets, sponsorship, speaking opportunities and much more to ensure we're at the forefront of this. Over 50% of speakers are female. Over 15% of speakers are from Black, Asian, or other ethnic minority backgrounds. And we continue to build these partnerships to ensure our audience is more diverse.

**“At UKREiIF we are discussing the future of our communities – we must therefore ensure our audience is more representative of society than the industry. We need to hear not only on panels but in networking scenarios from those with lived experiences that can help shape how our future communities are designed and delivered, and we're very passionate about that!”**

**Nathan Spencer,  
Director UKREiIF.**

**UKREiIF is about connecting the people, places, and businesses together who can collectively drive sustainable and inclusive regeneration and transform communities.**

**If you're here, you're part of that jigsaw puzzle.**

**And we thank you for being here, we look forward to you being part of the conversation over the next three days, and part of delivering the vision over the coming 12 months.**

[cp.catapult.org.uk](https://cp.catapult.org.uk)

## Does the event have any cloakroom facilities?

There is a ticketed and staffed cloakroom available to all delegates on the ground floor of Holiday Inn – for clarity on the map this is on the corner where the Pavilion Square meets Pavilion Avenue. Please be advised that all items are left at delegates discretion and is not the responsibility of the event organiser venue. Therefore, we advise against storing any valuables.

## Are there any toilets and baby change facilities available on site?

Toilets are available in new Dock Hall Foyer, first, second and 4th floor of the Royal Armouries, ground floor of The Holiday Inn, whilst other areas across the site being utilised such as the Boulevard Studios, Canary Bar and Department/ Fearn also have toilet facilities. You will find male, female and disabled toilets in the Royal Armouries as well as New Dock Hall. Baby Change is on 1st and 2nd floor of Royal Armouries.

## Do you have a Neurodiversity Room/sensory space?

Yes, we have a designated area in the Royal Armouries. This will be open throughout the event from when the doors open until they close. You can find it at the Reloaded Gallery on the 4th floor.

## What arrangements do you have for meeting places and working spaces at the event?

There are numerous areas that can be utilised for meetings and has a quiet space to do work – one suggested area would be the Holiday Inn which is next to the New Dock Hall Exhibition Hall – this has plenty of ground floor space with Wi-Fi and chargers. But other areas include inside the Royal Armouries with available spaces across a number of the floors, and the Department workspace on the Boulevard.

## Is there a prayer room?

A prayer room is available at the Holiday Inn Level One, Room 111.

## Is the event sustainable?

We are always striving for excellence when it comes to sustainability. This is why we were successful in achieving ISO20121 Sustainable Events Management Accreditation. However, we are not resting on our laurels and are focused on improving – which is one of the reasons why we only partner with organisations who meet the prerequisites for ISO20121 sustainability levels. Improvements for 2024 include the introduction of a Sustainability Pledge that our partners must sign. Awards are given to the most sustainable exhibitors and sponsors. We're proud that 0% of waste from our office operations annually (or during the event) goes to landfill. Instead, we partner with a local waste-to-energy heat facility. Our event lanyards are being recycled at a local charity to be reused for arts & craft and community events. Delegates have the option to offset their carbon emissions generated from travelling to UKREiIF on the Ecolibrium travel calculator website: <https://ecolibrium.earth/travel-carbon-calculator/>

## Can I let someone else use my ticket?

Due to increasing security on site, tickets this year have photo ID linked to them. Therefore you are unable to use someone else's ticket across multiple people.

## Can I attend any events on the programme?

The majority of activity on the website and in this programme are open to attend, unless they specify that they're invite only. Fringe events work slightly differently, and each fringe may have different methods of attending, with some needing you to register while some are invite only. Any questions? Just ask one of our team on site.

## Can I buy food and beverage at the event?

Food and beverage is available to purchase all day from various local vendors and pop ups with vegetarian, vegan and halal options on offer. Alcohol is available to purchase after 3:00 PM in various pop-up outlets, throughout the event footprint.

## Is there a press area on site?

Yes there is. This can be found on the ground floor of the Royal Armouries. To find the press area just ask anyone from our on-site team.

## FAQs

### What are the transportation options when attending UKREiiF?

The venue is 15 minutes walk from Leeds Train Station, 0.8 miles from the venue with several transport options available including a shuttle bus, taxi, bike hire, or water taxi. By car, CitiPark at New Dock is close and eco-friendly.

Park and Ride options include Elland Road, Temple Green, and Stourton sites, offering frequent bus services. A water taxi and free shuttle buses are available from Leeds Train Station and Sovereign Street, respectively. Bike storage is provided at the venue. Leeds Bradford Yorkshire's Airport is the nearest airport, with convenient transport to the city. Other nearby airports include Manchester Airport with direct transfers to Leeds.

### Can I attend any of the fringe events?

You can visit [www.ukreiiif.com/fringe-events](http://www.ukreiiif.com/fringe-events) for more information than the programme specifies or provides. Some of these events will specify that you can just attend. Others you may need to register for, while a limited number, are invite only.

### What has UKREiiF done to enhance opportunities for those from underrepresented groups in the industry?

This year we've implemented further improvements to our Diversity Charter, which is signed by our sponsors and partners to ensure they host sessions and bring delegations which more fairly represent society rather than the industry. In addition, we have had several programmes in place ourselves, such as the Free Ticket for Young Professionals for every five tickets purchased, over 70 partnerships with EDI groups and a dedicated EDI and Youth area sponsored by Regeneration Brainery.

# INVEST IN A PIONEERING REGION

## DELIVERING THE UK'S

## FUTURE SECURITY

**The Great South West is a dynamic £65bn economy, home to nationally strategic long-term investment opportunities that are vital for the UK's future security and prosperity.**

### GLOBAL OPPORTUNITIES

Stretching across Devon, Cornwall, Dorset and Somerset, the Great South West exports over **£12.75 billion** in goods and services annually, supported by **eight leading universities** and over **128,000 innovative businesses**.

We are leading in key sectors including **marine, energy, high value manufacturing, photonics** and **aerospace**, which are pivotal to propelling the UK to the forefront of global markets, and play a critical role in delivering the nation's economic security and **net zero** ambitions.

### A FUTURE OF COLLABORATION

Be part of something special in Leeds and **join us** at **Pavilion 23**, where we are hosting a programme of panels and 1:1s with senior business leaders. On **Tuesday 21st May**, we will be launching our exciting Investment Brochure, showcasing the fantastic opportunities located across our world-class region.

Discover how you can invest in the Great South West, a region with **unparalleled opportunities**, driving the **UK economy** and leading in the **global marketplace**.

Great South West

# CONNECT TO INNOVATE

We provide the UK's most sustainable and innovative property advice.

Working with exceptionally talented people and visionary clients to shape the future of our environment.

See what's on

WELL INFORMED

# Strategise Digitise Decarbonise

Bridging Net Zero ambition and action  
with an integrated approach

With buildings currently responsible for 40% of global carbon emissions – 70% of which come from operations – it's imperative that the technology within our buildings helps to achieve Net Zero targets.

We must ensure that buildings are sustainable throughout their lifecycle, with more efficient operation and maintenance, whilst also considering changing user needs and a new energy landscape.

Visit the Schneider Electric Hub in Pavilion 27 to explore how our solutions are at the forefront of Net Zero.

View our pavilion  
programme and  
book your session

# Invest in happiness

## PLACEMAKING SUMMIT

Thursday 27 June 2024

Join us for a unique one-day event bringing together built environment professionals, developers and investors from across the country for a day of networking and knowledge exchange in Basingstoke – a well-connected Hampshire town between London and the south coast ports.

Delve into the fascinating topic of “happiness” and its impact on placemaking and investment in the commercial property market. Don't miss this opportunity to connect, discover the Basingstoke opportunity, and gain a fresh perspective on shaping the future of placemaking.

**Basingstoke**  
#InvestInHappiness

A whole-life approach to building services engineering

Troup Bywaters + Anders LLP is a national engineering partnership delivering high quality building services consultancy from eight offices in the UK and Europe.

We bring a whole-life, performance-first approach to our clients, providing advice and support at all stages throughout the life of your buildings. Our services are delivered through our unique three-tiered approach:

- + **Design for performance** - designs that align with your sustainability objectives and expectations, striving for restorative and regenerative outcomes
- + **Design for management** - designs that enable the effective management and operation of a facility, bridging the gap between design and operations
- + **Operate to perform** - technology driven solutions, advice and support to achieve performance in all areas of asset and facility management.

Designing and operating buildings for higher performance

We are a carbon neutral business, and our operations are aligned with the UN SDG's, putting us on track to becoming Net Zero Carbon by 2030.

Sustainability is at the heart of our business as we make stronger commitments and take action to be at the forefront of climate leadership.

Find out how we can help design your pathway towards Net Zero Carbon and beyond.

# Electrifying our built environment with Communal Place-Based Power

The increased cost and complexity of electrifying our built environment requires cohesive, communal solutions.

Continuing to build disconnected, individual homes and commercial buildings in the new net zero landscape leaves an immense amount of value on the table that could benefit Placemakers, Residents and Occupants alike.

At SNRG, our name embodies our philosophy - the whole is greater than the sum of its parts; by connecting groups of homes and/or commercial buildings with a [SNRG SmartGrid](#), their collective capability unlocks a powerful synergy that allows us to:

Create new revenue streams for Placemakers

Enable more development with the available grid capacity

Fund rooftop and ground mounted solar PV

Fund communal energy storage and optimisation

Supply long-term, low-cost, low-carbon electricity

## Welcome to **Leeds**

CMS is delighted to welcome the real estate world to UKREiif in Leeds. As the law firm with the UK's leading real estate practice, we know a thing or two about the energy and dynamism of the North. That's why we have developed a world class real estate offering in each of our four offices across the region, to complement our market-leading practice in London and Scotland. Come and meet us all at our networking event on Tuesday 21 May.

**Please scan the QR Code for details.**

CMS is an international law firm that helps clients to thrive through technical rigour, strategic expertise and a deep focus on partnerships.

# ESTATE RENEWAL IN THE NEW ERA OF REGENERATION AND HOUSING DELIVERY.

placecapitalgroup.co.uk

Date: Wednesday 22nd May.  
Time: 15.30 – 16.30.  
Venue: Dockside Pavilion, Dockside Zone.

Join us to discuss how estate renewal and social housing-led regeneration can sit at the heart of a place-based approach to regeneration and play a central strategic role in driving the development pipeline and improving the lives of communities.

**PLACE  
CAPITAL  
GROUP**

# Partner with *placefirst*

Leading and award-winning single-family BTR developer, with over 1,500 high-quality private rental homes across the UK.

We have ambitious growth plans and are on the lookout for new opportunities, development sites or turnkey deals. We transform sites into exceptional neighbourhoods of modern, energy efficient homes, designed specifically for rent.

We stay for the long term and remain on site to manage our communities

We create attractive environments for successful regeneration

We are fully funded with investment in place to deliver our vision

Experienced, in-house teams to manage the whole resident experience

A Social Value developer with ESG at the forefront of all our plans

A trusted partner with a track record of delivering SFR neighbourhoods

# National Placemaker

[museplaces.com](https://museplaces.com)

We work in partnership to create beautiful, diverse and sustainable places; people-centred, high quality and built to last.

## Built. For long-term asset protection.

We are a trusted industry partner across the new-build homes sector. Our customers rely on us to inspect, advise and train to manage contractor risk and support the delivery of construction quality at every stage of the project lifecycle.

As a direct insurer, underwriting our own policies, we have a vested interest in the prevention of structural defects and in successful, long-term asset protection.

### Get in touch today.

Group

This session is in partnership with:

**We've found the perfect home for Rachel's pension.**

At PIC, our purpose is to pay the pensions of our current and future policyholders. We do that by seeking out long-term, purposeful investments that create lasting value for the whole of society, as well as delivering attractive financial returns.

To date we have invested more than £12 billion in sectors such as social housing, build-to-rent, regeneration leases and decarbonisation projects.

These investments help guarantee our policyholders' pensions, allowing them to enjoy the retirement they've worked so hard for. Like Rachel, who is helping to get more people in her local community pedalling their way into the future.

They also enable local authorities to progress vital infrastructure projects. So if you're looking to find investors to help bring your plans to fruition, we'd be delighted to discuss how we might partner with you to help bring forward suitable projects for your area.

Hayley Rees, Managing Director, PIC Capital, is chairing the 'Securing Development Finance: What Are Investors Really Looking For?' session, in the Bury Theatre at 15.30 on 22 May 2024.

# Building Safety. Act Now.

## Your Compliance Duties.

At Sphere Sphere, we provide a range of consultancy services to help you comply with your duties under The Building Safety Act 2022 and the Building Regulations. Our Building Safety division can support you with all aspects of design and construction to help achieve compliance with the technical and procedural requirements of the amended Building Regulations for all building types, including higher-risk buildings.

## Our Expert Consultants.

Safer Sphere can fulfill the role of **Principal Designer** for both the Building Regulations and CDM functions. We have a team of competent Building Regulations and CDM professional consultants who work **in-house**. This approach aligns with Dame Judith Hackitt's vision of one entity delivering both dutyholder roles. We offer a complete service that is embedded with technical compliance assurance to ensure our clients' needs are comprehensively met.

[www.safersphere.co.uk](http://www.safersphere.co.uk)

## TAILORED LEGAL INDEMNITY COVERAGE

As the Insurer, we underwrite directly on our own paper.

We can bespoke your client's policy to meet their exact coverage requirements and also provide them with an indemnity limit to fully insure the value of their property.

We currently have a single policy legal indemnity capacity of £1.65Bn for UK coverage.

Owned and run by a group of commercial property experts, a long-established independent property consultancy that's a popular alternative to the industry's larger international firms.

Society Studios® QUESTION EVERYTHING™

# BRANDING FOR PLACE AND SPACE

For over a decade, we've forged partnerships with some of the world's leading property developers across various sectors, spanning residential, commercial, build-to-rent (btr), student, and later living. Throughout this journey, we've cultivated a profound understanding of the industry, discerning the nuances within each niche.

## DELIVERING WITH IMAGINATION AND IMPACT

The 'big ticket' and the 'business as usual'. However complex or routine your project, you'll benefit from our lawyer's unerring focus.

The problems our clients face vary, but we solve them with a commercial approach to help our clients find the smartest, most imaginative route to the biggest impact.

MORE IMAGINATION MORE IMPACT

The leading platform to showcase the investment potential of UK cities and regions to global institutional and private capital.
